

Notice of Proposed No Further Action

For

CDPR Patrick's Point State Park
4150 Patrick's Point Drive
Trinidad, California

Case Number 1THU002

Humboldt County

Notice Posting Date: April 28, 2021

End of Comment Period: June 28, 2021

A soil and groundwater investigation was conducted at the above-referenced site and a release of petroleum hydrocarbons was documented. Although some contamination remains, this site meets the conditions for closure under the State Water Resources Control Board's "Low-Threat Underground Storage Tank Case Closure Policy." Regional Water Board staff proposes that no further work be required. The purpose of this notice is to inform interested parties, including owners of nearby land, that the case is being considered for closure, and to invite public comment on this proposed decision.

Problem Description

The Site is the location of the ranger station at Patrick's Point State Park. Two underground storage tanks (USTs) were removed from the site and subsurface investigations were performed over several years. Remedial excavation, and soil vapor extraction (SVE) has been performed at the Site. Although residual contamination remains in groundwater, concentrations are declining following remediation. The residual contamination in soil can be managed through the use of a soil management plan for any potential future subgrade construction activities.

Proposed Action

Case closure is proposed. This site meets the conditions for closure under the State Water Resources Control Board's "[Low-Threat Underground Storage Tank Case Closure Policy](https://www.waterboards.ca.gov/water_issues/programs/ust/lt_cls_plcy.html)."
(https://www.waterboards.ca.gov/water_issues/programs/ust/lt_cls_plcy.html)

Unless significant comments are received or new information is presented regarding this site, Regional Water Board staff plans to proceed with the closure process upon conclusion of the comment period. Please contact Paul Nelson at (707) 576-2686 or Paul.Nelson@waterboards.ca.gov with any questions or comments. Written comments may also be submitted to:

North Coast Regional Water Quality Control Board

Regional Water Board site records comprise both a paper file and an electronic file. Beginning in 2005, select file material was uploaded to the State Water Resources Control Board's GeoTracker website and not necessarily included in the paper file. All new file material after 2014 is retained only electronically. [The GeoTracker records](#) are available at

https://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0602300002

The paper file ("CDPR Patrick's Point", Case No. 1THU002) may be reviewed at the North Coast Regional Water Quality Control Board office from 8:00 a.m. to 5:00 p.m. Monday through Friday. Due to COVID-19 restrictions, appointments are required for file reviews and can be arranged by calling (707) 576-2220.
